DOUBLE-HUNG WINDOWS OPTIONS & ACCESSORIES

Colors

Windows and exterior of double-hung frames are available in the following colors:

**Dark Bronze exterior with White vinyl interior has a 10-year limited warranty.
Painting limitations prevent exact color duplication. See your Silver Line dealer for actual color samples.

Hardware

Color-coordinated lock & keeper are standard.

White | Beige | Sandstone

Grilles

Grille Types

Choose from flat or contour profile grilles—between-the-glass for easy cleaning or Simulated Divided Lights (SDLs) for a more traditional look.

Flat Profile | Contour Profile | SDL

Grille Patterns

Choose from a variety of grille patterns. Additional patterns available.

Colonial | Prairie | Valencia | 3x1 | Diamond

Glass

Choose the glass option that best fits your needs:

- Low-E
- Low-E³
- Low-E²⁰
- Low-E²⁵
- Low-E 2+²⁵

Frame Type

- Insert frame for replacement projects where existing frames are in good condition
- Nailing flange frame, ideal for new construction and remodeling projects where a J-Channel is not required
- Nailing Flange with J-Channel for easy trimming of siding to the window

Kinro Windows

Bottom sash can be removed for easy cleaning.

Sash

Two spring-loaded thumb latches for operation of removable lower sash.

Latches

Integral "J" trim eliminates the need for additional exterior frame accessories and covers the raw edge of the siding for a clean appearance.

Lap pocket

Marine glazed fixed panel and sash for superior weatherproofing.

Glazed panel

Frame and sash corners are welded for added strength and water tight corners with pre-punched flange for easy installation.

Welded corners

Anderson Windows

100 SERIES WINDOWS & PATIO DOORS

THE SMART ALTERNATIVE TO VINYL

Whether you're replacing, remodeling or building, Andersen® 100 Series windows and patio doors are a smart step up from vinyl. They provide uncommon value, combining time-tested performance with long-lasting beauty. Our 100 Series products are made with our revolutionary Fibrex® composite material, which comes in deep, rich colors that can dramatically enhance any project. In addition, Fibrex material is environmentally responsible and energy efficient, making 100 Series products a winning choice for anyone considering vinyl windows and doors.

DURABILITY

Fibrex material is twice as strong as vinyl, so weathertight seals stay weathertight. And 100 Series products come with durable, low-maintenance finishes that won't fade, flake, blister or peel.*

DEEP, RICH COLORS

Our 100 Series windows come in beautiful colors that can set a project apart.

ENVIRONMENTALLY SMART

Our Fibrex composite material is composed of 40% reclaimed wood fiber by weight.

Anderson Windows

FIBREX® MATERIAL. STRONG ON PERFORMANCE. GENTLE ON THE ENVIRONMENT.

With Fibrex® composite material, you get the best of both worlds: a top-performing product that is environmentally responsible.

Developed by Andersen, Fibrex material is a revolutionary structural composite material that blends the very best attributes of vinyl and wood. Fibrex material saves on natural resources because it is composed of 40% reclaimed wood fiber by weight. Special polymer formulations surround and fill each wood fiber, enabling top performance.

The result is a material that provides uncommon value and enhances the quality of any project. In use for nearly two decades in Andersen® products, Fibrex material has proven its strength and durability in all types of climates.

A REVOLUTIONARY BUILDING MATERIAL

- Fibrex material is twice as strong as vinyl, so weathertight seals stay weathertight
- It blocks thermal transfer nearly 700 times better than aluminum to help reduce heating and cooling bills
- For exceptional durability, Fibrex material retains its stability and rigidity in all climates

ENVIRONMENTALLY RESPONSIBLE

- Since Andersen developed the highly sustainable Fibrex material, reuse of waste wood fiber has prevented the harvesting of nearly 90 million board-feet of timber
- 100 Series windows can help builders earn LEED® points in three key categories: Energy & Atmosphere, Materials & Resources and Indoor Environmental Quality
- 100 Series products meet or exceed California Section 01350 Specification, a California indoor emission standard — one of the toughest in the country
- Like all Andersen windows, the 100 Series product line is designed to last* and help reduce future waste streams

See how Andersen created Fibrex material at andersenwindows.com/fibrex.

Ply Gem Windows

CLASSIC SERIES

FEATURES & BENEFITS

Easy-care vinyl requires virtually no maintenance to look great for years.

An excellent insulator, multi-chambered vinyl will help keep your home comfortable in every season.

Color-matched hardware provides an attractive, understated appearance.

The Classic series offers advanced energy-efficient glass packages to help lower heating and cooling bills while keeping your home comfortable season after season, wherever you live.

Additional glass options are available to meet your solar, sound, security and privacy needs.

Architecturally inspired window grilles beautifully complement different home styles.

Precision-crafted components help ensure operable windows open, close, tilt and lock with ease.

Optional jamb extensions simplify installation in 2"x 4" and 2" x 6" wall construction.

A Limited Lifetime Residential Warranty provides homeowner peace of mind. Please see the [Classic series warranty](#) for complete details.
